

Hunting Season 2023

(with firearms *)

SLBM Trails are located within Ontario Wildlife Management Unit (WMU) 55A.

2023 hunting season for large game animals within WMU 55A is as follows.

Moose — 16-22 October

Deer — 6-19 November

It is recommended that non-hunters avoid using SLBM Trails during the above dates for your safety.

Should you decide to hike during these dates, please take the appropriate precautions by wearing appropriate dress (bright fluorescent orange) to signal your presence to hunters.

You should be aware that hunters do not take kindly to persons interfering with their hunt — they have had to purchase licences for the privilege to harvest a moose or deer.

* Bow & arrow hunting: Deer 1 Oct – 15 Dec / Moose 7-22 Oct.

Check [Ontario 2023 hunting regulations](#) for applicable dates for each game animal species.
